Thanks, Elaine. There is a sign on the door saying it is the Montrose file room. Thank you!

Kelly,

John is in 09316 and I do not know the exact room #, but we will have the files placed in that office. We will inform you once they are available.

It would be best if they could drop them off in the office next to John Lyon's office – where all the rest of the files are. They can just let me know when it's done. I will then go in and review.

Thanks!

Kelly:

I will let the Record Center staff know. Can you drop by Room 3110 to pick them up or do you want them dropped off in your office on 10 ?

Kelly:

Do you want the rest scanned or do you want to review them first ?

Hi Elaine:

As you may recall, John had a number of files pulled for our renewed Montrose litigation two years ago. Several of them now appear to be very helpful for a new project: the SoCal drum ocean dumping project.

John asked me to go in and scan the contents of the file he noted below. In doing so, I realized that for the doc ID he noted, 2347240, only the first of 6 folders was pulled, as noted in the picture below. Can you please check and see if there are any other folders, and if so, if we can get those pulled as well?

Many thanks!

Regards,

Kelly Manheimer
